

FLIGHT LEVELS ACADEMY

Certificate of Completion Flight Level 2 Design

Arnd Bochmann

has successfully completed the Flight Level 2 Design

In this workshop (16h), participants learn how to build and manage coordination systems across the organization and avoid local sub-optimization of teams using the Flight Levels System model and architecture. Participants become proficient in how to use visualization to reduce dependencies between teams, how to create end-to-end flow across multiple teams, how creating focus reduces time to market, and how to coordinate using agile interactions.
